January 1, 1962

Dear Diary,

The first day of the year has always been the day to take stock of the past and make resolutions for the future. So I spent my day thinking about my high school years.

I remember when the class of '62 first entered high school, a bunch of green freshmen wondering what the whole thing was all about. However, when phrases like "just wait 'til initiation," and "sound off" filled the halls, we began to feel like we were a part of it.

All through high school we were constantly being encouraged by our faculty, and supported by the wonderful people of Craig.

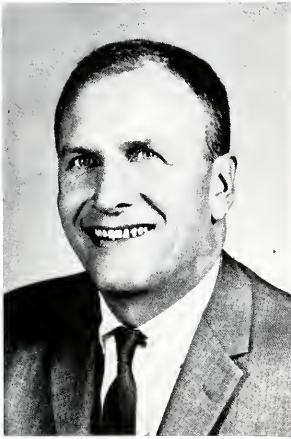

The senior class always stood before us as a goal and an example. Now, as we find ourselves in that position we realize the responsibilities of seniors, both as a class and as individuals. It's a large order. So my New Year's Resolution is to help my class leave the best example for the oncoming classes.

Homecoming.*

Dear Diary,

Here are members of the Senior Class whose qualities go to make up Mr. and Miss MoCoHi, the typical Moffat County High School student. Not every student possesses all the qualities listed here, and many students may have all the qualities and more. Anyhow, it was fun taking these pictures. No person should feel slighted over not being included, and no person should take the characterizations too seriously.
